

RPL Introductory Course

Course Overview

The introductory course is aimed at the hobbyist who wishes to fly drones recreationally.

Theory: Basic Air Law and other safety aspects are covered including software and drone setup if required.

Practical: Approximately 1 – 2 hours of flying depending on battery availability of your own drone. We will also bring a training drone along if needed.

Venue: Registered Training Field, Cape Town, Johannesburg & Durban

Dates: By appointment

To Book: Contact karen@drone-x.co.za

Price available on request
